## **Rationale**

At Oakworth Primary School, we believe that in order to facilitate aspirational teaching and learning, a comprehensive assessment strategy is essential. This assessment process can only be successful if regular reviews take place and plans are communicated and actioned at all levels.

Our chosen assessment systems are free from bias, stereotyping and generalisation in relation to gender, class and race. We analyse the progress of all pupils, to ensure that we meet the needs of individuals and specific groups.

#### <u>Aims</u>

Using the principles and processes of assessment, our aims are to:

- Monitor progress and support learning.
- Guide planning, teaching, support, curriculum development and the creation of resources.
- Celebrate the achievements of pupils and identify areas for development.
- Encourage independent and aspirational learning, by informing children of their progress and giving guidance on how to improve.
- Communicate with parents/carers and the wider community about our pupils' achievement.
- Provide information to ensure continuity if a child changes year group or leaves the school.
- Comply with statutory requirements.

## **Early Years Foundation Stage (EYFS)**

- All learning in Nursery and Reception is planned, taught and assessed in line with the Early Years Foundation Stage Statutory Framework.
- Each child has an individual profile
- In Reception, an Early Years Foundation Stage Profile (EYFSP) will be completed for each pupil. The EYFSP summarises and describes pupil attainment at the end of the EYFS.
- Each child's level of development is assessed against the Early Learning Goals. The EYFSP will indicate whether a pupil is meeting expected standards of development, if they are exceeding the expected levels, or if they are not yet meeting the expected levels ('emerging').
- EYFS data will be recorded on the Bronte Academy Trust tracking system and passed up each year so teachers are always able to see how each child performed at each stage of their education.
- Parents will also receive the results of the EYFSP, and will be given an opportunity to discuss any concerns with the teacher who completed the profile.
- Early Years assessment outcomes will be subject to moderation by Bradford LA (on request).

# Key Stage 1

- Teacher assessment milestones are recorded electronically using the Bronte Academy Trust tracker and assessment proformas provided by school leaders.
- Summative assessment is scheduled across the year, to inform teacher assessment judgements. It is Oakworth's policy that this is done in an informal way so the children are happy and relaxed and often unaware that they are being 'tested'.
- At the end of KS1, children's attainment in mathematics, reading and writing is teacher assessed; this is informed by externally-set, internally-marked tests for maths and reading.
- The proportion of pupils achieving expected standard/greater depth in reading, writing, mathematics and science is published at a national and local authority level. Outcomes are reported to parents and carers.
- Termly meetings for each year group are regularly scheduled and focus on:
   Reviewing the progress of all pupils.
   Identifying and monitoring individuals that aren't performing as we'd expect them to
   Pinpointing barriers to learning that occur across classes, e.g. attendance, punctuality,
   behaviour, Disadvantaged, LPA, EAL and SEND factors.

 Phonics Screening and KS1 assessment outcomes are subject to external monitoring/ moderation visits by Bradford LA (on request).

#### **Key Stage 2**

- Teacher assessment milestones are recorded electronically using Bronte Academy Trust tracker.
- Formal testing is scheduled across the year, to inform teacher assessment judgements. Formal maths, reading and EGPS tests are timed. Other tests are not timed and may be incorporated into everyday classroom practice.
- At the end of KS2, children's attainment in mathematics, reading and EGPS is assessed through externally-set, externally-marked tests. Attainment in writing and science is teacher assessed.
- The proportion of pupils achieving expected standard/greater depth in reading, writing, mathematics, EGPS and science is published at a national and local authority level. Outcomes are reported to parents and carers.
- Termly meetings for each year group are regularly scheduled and focus on:
   Reviewing the progress of all pupils.
   Identifying and monitoring individuals that aren't performing as we'd expect them to
   Pinpointing barriers to learning that occur across classes, e.g. attendance, punctuality,
   behaviour, Disadvantaged, LPA, EAL and SEND factors.
- KS2 assessment outcomes are subject to external monitoring/ moderation visits by the LA (on request).

# **SEND Pupils**

Whilst Oakworth Primary is aspirational for the learning of all children, we recognise that a small number of children with SEND may not progress at the same rate as their peers. These children are assessed in school using the B Squared system, which breaks down progress into smaller units of learning. Individual Education Plans contain relevant B Squared targets, which must be agreed with the school's SENDCo. These targets measure progress in core learning across a given time period (usually half termly).

### **Leadership Responsibilities**

- Assessment is plotted on the whole school calendar each year.
- Regular moderation opportunities within the school and Bronte Academy Trust are provided.
   Staff also attend LA sessions to ensure that judgements are in line with other schools and academies.
- The wider leadership team is responsible for the quality assurance of teacher assessment judgements.
- School leaders analyse data for individuals and groups and meet regularly with staff to facilitate relevant and aspirational provision for all children.
- The Headteacher ensures that the correct procedures are adhered to by all staff and children during statutory assessments.
- The school utilises Bradford Local Authority as its moderation and monitoring provider.
- The Leadership Team reports regularly on standards to the Governing Body and Bronte Academy Trust Trustee Board.

#### **Effective Feedback and Marking**

At Oakworth Primary School, we believe that Effective Feedback should be provided for every child; focusing on progress and improvement needs. This enables children to become reflective, resilient learners and helps them to close the gap between current and desired performance and to aspire to higher levels of achievement. Teachers should provide pupils with incisive feedback about what they can do to improve their knowledge understanding and skills; this may be verbal or written. Marking should be purposeful and should not add unnecessarily to teachers' workload. Pupils can then use this feedback effectively to progress in their learning.

#### **Effective Feedback should:**

- Raise standards of attainment by identifying examples of success in a child's work and areas for development
- Ensure all children receive timely feedback that enables them to move their learning forward, as aspirational and self-motivated learners.
- Provide children with the opportunity to regularly respond to teachers' marking and feedback.
- Inform the teacher of a child's progress, to inform future planning.

#### **Marking Guides**

#### **EYFS**

- In EYFS, the emphasis is on verbal feedback and comments are made in conjunction with the pupil.
   Verbal feedback should be referenced as VF. Additional notation should indicate the Early Learning Goal identified during the discussion.
- All work should be marked in black pen.
- Marking must link to developmental ages and stages. There is no need for emerging, developing, secure; as that is assessed over time.
- On long observations, next steps should be given to move children's learning on. These should then be followed up on Tapestry to ensure this next step has been achieved by the next long observation.
- When a child mark makes, staff should date the work and record any conversations between the child and teacher. Then record a commentary where possible and that all relevant areas of the curriculum are cross referenced.
- Formation is key and incorrect handwriting/number formation should always be altered/modelled and given as an Improvement Point for the child.

#### KS1 and KS2

- Children of all ages should be taught how to edit and improve their own work.
- All work should be marked in black pen, utilising agreed marking codes (Appendix One).
- Yellow highlighting is used to praise children for excellent work.
- Time should be allocated within the school day to ensure that children can respond to feedback.
- Staff should use their professional judgement when using improvement points (comments on how the child can improve their work), however there should be regular improvement points drawn from year group objectives/non-negotiables. Improvement points must be written explicitly so that the child knows exactly what is required. Children must be actively encouraged to read and act upon improvement points and staff should check their responses. Incorrect responses should be followed up with additional support.
- Children should regularly self/peer-assess in lessons. Staff work around the room providing ongoing feedback and we expect good levels of effort at all times.
- Where peer marking/self-marking has been used, teachers should tick to show that work has been reviewed.
- Green pen should be used by children for editing/marking/improvements/responses to staff marking.

# **English**

- Targets (Next Steps) should be used to develop the skills of writing. Personal targets should be drawn
  from objectives for the appropriate stage. Children should be aware of their targets and this should
  underpin all writing.
- Titles and word dates are to be written in books and neatly underlined.
- Targets should be referenced throughout the unit, Target Achieved stamps may be used on Hot Writes.
- Set targets must be formally assessed during the hot write and dated on assessment sheets, if learnt and applied (in the hot write and, where applicable, in the Creative Curriculum).

#### **Mathematics**

- A single tick should be used to indicate correct working out.
- A dot should be used to indicate incorrect working out. In most cases, no more than 4 dots should be used per piece of work. If a child has repeatedly made a mistake with the use of a particular calculation, this misconception must be addressed. For example: a worked example presented in the book; verbal feedback or support from a teacher to the child/group of children.
- Staff may set consolidation questions (usually following a modelled example in the child's book).
- Additional challenges may also be set to extend learning.

# **Review of the Policy**

This policy will be reviewed every two years (or sooner, should guidance change).

Signed ...... January 2024

**Chair of Governors** 

# Appendix One

# **Oakworth Primary School Marking Codes**

Symbol	Function
<b>√</b>	I have seen this work/correct
•	Calculation incorrect
Highlight	Highlight in yellow for positive praise and on assessed writing pieces
+	Improvement point/ levelling work
T	Target
S	Spelling error
P	Punctuation mistake
G	Grammar mistake
VF	Verbal feedback given.
Adult's Initials	Initial when marked by cover supervisor, PPA team or student teacher
